## SKILLS

Algorithm

Software Developing

Problem Solving

Cyber Security

Digital Marketing

Learning New Technologies

## EXPERIENCE

### MOBILE PROGRAMMING INTERN

Digigarson | 2021

In my first internship, I gained mobile programming experience for the first time using a technology such as flutter. Although I do not use this programming language at the moment, it has been very helpful in shaping my career.

### CYBER SECURITY CENTER

isteCenter | 2022

I worked in the field of internet of things in this company where I did my internship in the field of cyber security. Our work was to automate security tests on iot devices.

### FRONTEND DEVELOPTER INTERN

sarjagi.com | 2022

I had the opportunity to use pure css and vanilla javascript at this company. I also used a fairly new and interesting technology such as svelte.

### FRONTEND DEVELOPER INTERN

badiworks | 2022

I had the opportunity to manage data, change frontend page designs and work with single page applications. here i used technologies like php vuejs mysql bootstrap

## HOBBIES

### TABLE TENNIS
